

ABRACADABRA

Interactive web-based literacy program

designed for early elementary school-aged students, their educators, teachers and parents.

Abacadabra is a highly interactive, flexible, and powerful web-based tool designed for use in early elementary classrooms.

Taking a balanced reading approach, Abacadabra (ABRA) aids beginning readers by offering a variety of resources such as professional development training for teachers, literacy activities, digital stories, assessment capabilities, and a communication tool.
